Preamble

In line with the accession of the Kingdom of Saudi Arabia (KSA) to the World Trade Organization (WTO), as per the Decree No. 244 of the Council of Ministers, dated 21/09/1426 A.H., concerning the approval of documentation on the Kingdom's accession to the WTO, and the requirements by which the KSA shall adapt its relevant systems with the principles of WTO agreements, particularly, the **Technical Barriers to Trade (TBT)**, which stipulates that no unnecessary technical requirements shall impede the flow of commodities among the member states, and that technical requirements and methods of conformity assessment shall not discriminate between products on the basis of origin, through the issuance of Technical Regulations that include the essential requirements and standardized business procedures.

In accordance with **Article 3 (Clause-1)**, **Statute** of Saudi Standards, Metrology and Quality Organization, issued in accordance with the Council of Ministers Decree No. 216, dated 17/06/1431 A.H. (31/05/2010 A.D.), stipulating that: **“SASO shall issue Saudi standards, quality systems and guidelines and conformity assessment, compatible with international standards and guidelines, that meet the requirements of the World Trade Organization (WTO) Agreement, in addition to their compliance with Islamic Sharia and serving the interests of Saudi Arabia”**;

In accordance with **Article 4 (Clause-2)**, Statute of Saudi Standards, Metrology and Quality Organization, issued in accordance with the Council of Ministers Decree No. 216, dated 17/06/1431 A.H. (31/05/2010 A.D.), stipulating that: **“SASO shall issue regulations for conformity assessment procedures of commodities, products, and services according to approved standards”**;

In accordance with **Article 6 (Clause-1)**, Statute of Saudi Standards, Metrology and Quality Organization, issued in accordance with the Council of Ministers Decree No. 216, dated 17/06/1431 A.H. (31/05/2010 A.D.), stipulating that: **“Subject to Article 4 of this Statute, SASO shall be the authority in charge of matters related to standards, conformity assessment procedures, granting the quality mark, metrology and calibration. All public and private sectors shall be adhered to the Saudi standards in all purchases”**.

Whereas the standards of the products included in a regulation shall be a basis for the conformity of such products with the essential safety requirements included in the specified regulation.

Therefore, SASO has developed this Technical Regulation.

Note: This preamble and all the annexes of this Regulation shall form an integral part thereof.

Article (1) Terms and Definitions

1/1 When applying the articles of this regulation, terms and expressions hereunder - shall have the meanings indicated in front thereof, unless the context otherwise requires:

KSA: The Kingdom of Saudi Arabia.

The Board: SASO's Board of Directors.

SASO: Saudi Standards, Metrology and Quality Organization.

Regulatory Authorities: Government body/bodies with regulatory tasks in **consonance** according to their specializations, which are responsible for the implementation and enforcement of technical regulations, whether in customs, markets, or manufactories.

Market Surveillance Authorities: Government body/ bodies responsible for carrying out market surveillance operations.

Technical Regulation: A document approved by the Board that provides the specifications of products, associated processes and production methods, including the valid applicable administrative provisions; with which compliance is mandatory. It may include or pay attention to terms, definitions, packaging, and requirements of markings or labelling for products, services, processes or production methods.

Standard: A document specifying the characteristics of **commodity, material, service, or anything that is subject to measurement**. The standard also offers descriptions, characteristics, level of quality, dimensions, measurements, safety and security requirements. It may include or pay attention to terms, codes, testing methods, sampling, packaging, and requirements of markings or labelling.

Essential Requirements: The special requirements of the products; that may affect the **safety, health, and the environment; that must be adhered to.**

Market Surveillance: Activities and measures carried out by the market surveillance authorities to verify that products meet the requirements stipulated in the relevant technical regulations, and to ensure that they do not pose a risk to health, safety, environment, or any other aspect related to the protection of the public interest.

Hazard(s): A potential source of harm.

Risk (s): A potential risk causing damage; associated with the severity of damage.

Supplier: Every natural or legal person in the supply chain whose activities may impact the product's properties:

- A product manufacturer, in case that he is resident in KSA, or the person identified as the manufacturer of the product, through linking the product to their name, or to a relevant commercial description, or any person who provides a product renewal.

- An agent, if the manufacturer is resident outside the KSA or an importer in the absence of an agent of the manufacturer.
- Any person in the supply chain, whose activities may affect the product properties.

Conformity Assessment Procedures: A document approved by the Board of Directors, which describes the procedures used directly, or indirectly for the conformity assessment.

Notified Bodies: Conformity Assessment Bodies, approved by SASO in accordance with the Regulation of Conformity Assessment Bodies Acceptance.

Certificate of Conformity: A certificate issued by SASO or an approved notified body, which ensures the conformity of a product, or any batch thereof, with the requirements of relevant standards.

Supplier Declaration of Conformity: A declaration by the supplier by which it declares that a product conforms with the requirements of the applicable legislations, without the mandatory intervention of a third party neither in the design stage, nor in the production stage of the manufacturing process. **A declaration may depend on testing the product in accordance with the relevant legislation.**

Saudi Quality Mark: A mark granted by SASO, which declares that the supplier has established an effective management system, which ensures that the products are produced in accordance with the applicable regulations, granting procedures, and relevant Saudi standards.

Placing on Market: Launching a product for the first time in the Saudi market for which the manufacturer/supplier is responsible.

Making Available on the Market: Any supply of the product for distribution, consumption or use in the KSA, in the course of a commercial activity, whether in return for payment or free of charge.

Withdrawal: Any procedure that aims to prevent placing a product in the market or in a supply chain.

Recall: Any procedure that aims to recall products made available for the end-user.

Product: Footwear, which is everything worn on the feet except for socks.

Footwear: A shoe that covers the foot to below the talus and is made using a mold to get the desired shape and size. **The top component is made up of the face, sides, and back of the shoe, while the lower part is made up of the outsole, the insole and the heel.**

Insole: A piece of leather or any other suitable alternative material, the shape of which matches the shape of the bottom of the shoe mold.

Outsole: The bottom of the insole that touches the ground while walking.

Safety (protective) Footwear: A protective footwear that provides protection, designed and tested to ensure that it is effective in providing basic protection (impact and compression resistance) to the toes. In addition to being used to ward off risks in the following specific areas: metatarsal protection, electricity transmission protection, puncture resistance, thermal insulation, water permeability resistance, chemical resistance and slip resistance.

Professional Footwear: Footwear used in daily work activities, the type of which differ from one occupation to another.

Label: It includes every statement, illustration, mark, picture, written, printed, woven or engraved material on the product, its package, or attached to it.

2/1 The terms and expressions specified herein shall have the meanings specified in the applicable laws, regulations and resolutions of KSA.

Article (2) Scope

2/1 This Technical Regulation shall apply to all types of footwear, whether made of leather, textile, plastic or a mixture of these materials.

2/2 Excluding the following:

- Medical footwear, as it shall meet the requirements of the Saudi Food and Drug Authority (SFDA).
- Footwear classified as toys.

2/3 Professional footwear has additional requirements included in the Technical Regulation for Personal Protective Equipment and Clothing, and the relevant standards included therein.

2/4 Annex (1) shows examples of footwear subject to this Technical Regulation, with reference to the customs codes of the harmonized system (HS Code).

2/5 It is strictly prohibited to place - in the KSA markets - manufactured footwear or footwear whose components include animal skins that are forbidden by law.

Article (3) Objectives

This Technical Regulation aims to lay out the essential requirements for footwear included in the scope of this Technical Regulation, and to identify the conformity assessment procedures with which suppliers shall comply, while placing or making these products available in the KSA markets, in order to ensure the conformity of these products to the basic requirements aiming at preservation of the environment, and the health and safety of the consumer, and facilitate market surveillance procedures.

Article (4) Supplier's Obligations

The supplier shall adhere to the following requirements:

4/1 General Requirements

- A) The product's fulfilment of the requirements set out in the standards contained in Annex (1) of this Technical Regulation, where the conformity of the product to the relevant standard is considered sufficient evidence for its fulfilment of the relevant basic requirements specified in the Technical Regulation.
- B) Each footwear offered for sale in the markets shall have a data label that includes the associated information and size, in accordance with the relevant standard contained in Annex (1).
- C) Each footwear must have a size, according to the standard provided in Annex (1).

4/2 Technical Requirements

Footwear and their accessories shall meet the technical requirements set out in the standard contained in Annex (1) of this Technical Regulation.

4/3 Metrological Requirements

- A) International system of units (SI Units), multiples or parts thereof shall be used during design, manufacturing, or trading.
- B) Footwear sizes shall be in accordance with the relevant standard contained in Annex (1).

4/4 Packaging Requirements

- A) Footwear shall be packed in a single (carton) package, in pairs and not be loose.
- B) Ensure that the product is packaged according to its nature and according to the packaging requirements stipulated in the relevant standard.
- C) Footwear shall be packed in cartons in accordance with good professional practices.
- D) Ensure that the product packaging materials are free of lead, heavy metals, or any substance harmful to human health and safety or to the environment.
- E) Ensure that the product packaging material bears the recycling symbol when using recyclable plastic bags.

Article (5) Labelling

Labelling of the product, intended for placement and display in the market, shall meet the following conditions:

- 5/1 Brand name and country of origin.
- 5/2 Data shall be in Arabic or in both Arabic and English.

- 5/3 Label having the footwear information shall be affixed to each footwear in a way that difficult to remove.
- 5/4 The labelling shall fulfill the technical requirements set out in this Technical Regulation and the relevant standards contained in Annex (1).
- 5/5 All the information contained in the labels shall be correct and proven.
- 5/6 Images and phrases used on the product or the packaging shall not violate the public law, morals, and the Islamic values prevailing in KSA.
- 5/7 Footwear shall include the data required in paragraph (4/2) above.

Article (6) Conformity Assessment Procedures

- 6/1 Only the requirements of conformity assessment procedures set out in this technical regulation must be met, and if other related requirements are contained in any standard shall not be taken into account.
- 6/2 The supplier - responsible for market placement of the products - shall obtain a certificate of conformity issued by a notified body approved by SASO, according to the following:
 - A) Form (Type 3) regarding footwear products for infants (under 36 months), as shown in Annex (2).
 - B) Form (Type 1A) regarding other products as shown in Annex (3).
- 6/3 The notified body shall carry out the conformity assessment procedures according to the specified form, in order to ensure fulfillment of the requirements of this technical regulation and the relevant standards set out in Annex (1).
- 6/4 The product shall be accompanied by a technical file, which includes the following:
 - A) Supplier (manufacturer/importer) Declaration of Conformity, according to the form attached in Annex (4).
 - B) Risk assessment document.
 - C) Country of origin.
 - D) Reports of the required tests specified in the technical regulation.
 - E) A list of standards applied to the product, contained in Annex (1).
 - F) Product explanatory booklet in case the label cannot be affixed to the product.
 - G) The supplier shall cooperate with the Regulatory Authorities and Market Surveillance Authorities by providing the technical file, certificates of conformity, and any other documents proving the conformity of the product with the requirements of this technical regulation, upon request.

- 6/5** Products subject to this technical regulation that have obtained the Saudi Quality Mark or its equivalent shall be deemed as complying with the requirements stipulated in this Technical regulation.

Article (7) Responsibilities of Regulatory Authorities

Regulatory Authorities, as a part of their competences, shall carry out the following:

- 7/1** Verify that the products subject to this **technical regulation** fulfill the specified **conformity assessment procedures** and the technical documents attached to the consignments at customs ports and manufactories.
- 7/2** Regulatory Authorities have the right to - randomly - sample the products and refer such samples to the competent laboratories to ascertain the extent of conformity with the requirements contained in this Technical Regulation.
- 7/3** Regulatory Authorities have the right to charge the suppliers (manufacturers and importers) with the costs of testing and the associated fees.
- 7/4** In case of a non-conformity of the product, Regulatory Authorities shall withdraw the concerned products from warehouses, and take necessary legal actions.

Article (8) Responsibilities of Market Surveillance Authorities

Market Surveillance Authorities, as a part of their competences, shall carry out the following:

- 8/1** Enforce the market surveillance procedures to the products in markets and the products stored in the warehouses of traders and manufacturers, in order to verify the safety of the products and the extent of fulfillment of the requirements stipulated in this Technical Regulation and in the relevant standards.
- 8/2** Take samples of the product, whether from the market or warehouses of suppliers (manufacturers and importers), in order to conduct the necessary tests and to verify the conformity of such products with the requirements set out in this Technical Regulation.
- 8/3** In case of non-conformity of the product – displayed or stored – with the requirements of this Technical Regulation, Market Surveillance Authorities shall take all administrative actions including withdrawal and recall of such products. Procedures and penalties – stipulated in Article (9) – shall be applied after taking the necessary actions.

Article (9) Violations and Penalties

- 9/1** It is prohibited to manufacture, import, launch, or even advertise the products non-conforming to the provisions of this Technical Regulation.
- 9/2** Failure to meet the requirements of this Technical Regulation shall be a sufficient reason for Market Surveillance Authorities and Regulatory Authorities

to consider the product as non-conforming, which may pose a risk to the health and safety of the consumer and to the environment, including, but not limited to:

- A) Non-fixation or improper fixation of conformity labels, Saudi Quality Mark, or its equivalent.
- B) Failure to issue or improper issuance of the Certificate of Conformity or the Supplier Declaration of Conformity, or having incomplete or incorrect information.
- C) Unavailability or incompleteness of the technical documentation.
- D) Unavailability or incompleteness of product data/labels or the usage guidelines, or lack of product data or information related to **hazardous materials**.

9/3 In case of a violation of the provisions of this Technical Regulation, Market Surveillance Authorities – depending on the situation - shall take all necessary actions to eliminate such violations, and their effects from the market. To this end, Market Surveillance Authorities may:

- A) Mandate the violating party – responsible for placing and displaying the product – to withdraw the product from the warehouses or markets in order to remedy such violations, if possible. The product may be exported or destroyed (according to the nature of the product) within the period specified by the Market Surveillance Authorities.
- B) Withdraw, restrain or destroy the products, or take any other necessary action to recall such products from the markets. Market surveillance Authorities – as the case may be - may announce the withdrawal of the product from the markets, and the violating party shall bear all associated expenses.
- C) Deal with the violating products covered in this Technical Regulation in accordance with the laws and regulations applicable to Regulatory Authorities and the Market Surveillance Authorities.

9/4 In case of non-conformity of the products, SASO shall take the necessary actions concerning products non-conforming with the requirements of this Technical Regulation, including the cancellation of the relevant **certificate of conformity**, while taking the necessary measures with the notified body, which issued the certificate, in accordance with the Regulation of Conformity Assessment Bodies Acceptance

9/5 Without **prejudice** to any other law, a party that violates any of the provisions hereof shall be subject to the penalties stipulated in applicable Anti-Commercial Fraud Law or any other superseding law.

Article (10) General Provisions

- 10/1** Supplier shall bear full legal responsibility for the implementation of the requirements of this Technical Regulation, and shall be subject to the penalties stipulated in the Anti-Commercial Fraud laws and/or any other related laws, in case any violation of the articles of this Technical Regulation is proven.
- 10/2** This Technical Regulation shall not impede the supplier to comply with all other systems/regulations applicable in the Kingdom of Saudi Arabia; pertaining to trading, transporting, or storing the product, in addition to the rules/regulations related to the environment, security and safety, and to the requirements of the Technical Regulation of **Textile Products**.
- 10/3** All suppliers of the products subject to the provisions of this Technical Regulation shall provide the inspectors of the Regulatory and Market Surveillance Authorities with all necessary information and facilities, when required, to carry out their assigned tasks.
- 10/4** Where new originated cases that cannot be treated under the provisions of this Technical Regulation, or where a dispute arises as a result of the application of those provisions, such matter shall be referred to the competent committee in SASO, in order to issue a proper resolution regarding the case or dispute, while taking the public interest into consideration.
- 10/5** The supplier may submit a new request after elimination of the reasons of rejection, and after the necessary corrections have been made. The supplier shall be responsible for any additional expenses determined by SASO.
- 10/6** SASO shall examine the complaints received regarding the products having a **Certificate of Conformity or a Quality Mark**, if any, and verify the validity of such complaints, and take the necessary legal actions in case of any violations.
- 10/7** SASO has the right to annul the Certificate of Conformity or the Quality Mark license, if any, if the supplier violates the provisions herein, and shall take the legal actions to ensure the preservation of the rights of SASO.
- 10/8** If any modifications were made to the product during the validity period of the Certificate of Conformity or the Quality Mark license, if any, (except for figure modifications), the certificate or the license for this product shall be annulled, and a new request shall be submitted.
- 10/9** SASO exclusively have the right to interpret the articles of this Technical Regulation. All beneficiaries of the application of this Technical Regulation shall adhere to the interpretations issued by SASO.

Article (11) Transitional Provisions

- 11/1** The supplier shall take corrective actions in accordance with the provisions of this Technical Regulation within **6 months** as of the date of publication in the Official Gazette.

11/2 Subject to the provisions of item (1) of this Article, products not complying with the provisions specified in this Regulation may be traded for a period of no more than one year as of the date of publication in the Official Gazette.

11/3 This Technical Regulation - once adopted – shall supersede all preceding regulations related to the scope of this Technical Regulation.

Article (12) Publication

This Technical Regulation shall be published in the Official Gazette.

A handwritten signature in blue ink, appearing to be 'to' or similar, is written below the end of the sentence.

Annex (1)

A) List of Footwear Products and their Accessories and Related Standards

No.	Title of Standard in Arabic	Title of Standard in English	Standard No.
1	الشباب غير الرسمية – المتطلبات وطرق الاختبار	Informal Slippers-Requirements and test methods	SASO-2931
2	الأحذية - المفردات والمصطلحات	Footwear - Vocabulary	SASO ISO 19952
3	الأحذية – المواد الضارة المحتمل وجودها في الأحذية ومكوناتها	Footwear -- Critical substances potentially present in footwear and footwear components	ISO /TR 16178
4	الأحذية النسائية – المتطلبات وطرق الاختبار	Women's footwear- Specifications and test methods	SASO-2890
5	المصطلحات والتعاريف المستخدمة في صناعة الأحذية	Terms and definitions used in the footwear industry	SASO-1621
6	المواد الضارة المستخدمة في صناعة المنسوجات	Harmful substances used in textile products	GSO 1956/2009
7	البيانات الإيضاحية للمنتجات النسيجية	Identification labels for textile products	SASO 1173
8	الأحذية الرجالية – المتطلبات وطرق الاختبار	Men's footwear- Specifications and test methods	SASO 2889
9	الأحذية غير الرسمية – المتطلبات وطرق الاختبار	Leisure footwear-Specifications and test methods	SASO 2891
10	الأحذية الرياضية – المتطلبات وطرق الاختبار	Sport footwear - Requirements and test methods	SASO 2930
11	أحذية الأطفال – المتطلبات وطرق الاختبار	Children footwear- Requirements and test methods	SASO 2901
12	مقاسات الأحذية - نظام موندوبوينت للمقاسات و العلامات والوسم	Footwear sizing — Mondopoint system of sizing and marking	ISO 9407:2019
13	الأحذية - المقاسات - تحويل أنظمة المقاسات	Footwear — Sizing — Conversion of sizing systems	ISO/TS 19407:2015
14	الأحذية - المقاسات - المفردات والمصطلحات	Footwear — Sizing — Vocabulary and terminology	ISO/TS 19408:2015

Note: The list of standards mentioned in this Annex is subject to review, and suppliers are responsible for ensuring that they use the latest standards through SASO's website.

B) List of Products and Customs Coding

No.	Product categories	Customs item
1	Watertight footwear with outsoles, rubber or plastic uppers not fixed to the outsole nor assembled by sewing, rivets, nails, screws or similar processes.	6401
2	Other footwear with outsoles and rubber and plastic uppers.	6402
3	Footwear with rubber, plastic, genuine or regenerated leather outsoles, and genuine leather uppers.	6403
4	Footwear with rubber, plastic, genuine or regenerated leather outsoles, and textile uppers.	6404
5	Other footwear	6405
6	Footwear parts (including uppers fixed to soles, other than outsoles; interchangeable insoles (loose), heel cushions (small heels) and similar articles; leg guards and similar articles, and parts thereof.	6406
7	Footwear	681291000003*
8	Skates with wheels	950670000003*

Note: The products and customs tariffs (HS Codes) found in Saber electronic platform are considered the updated and approved version.

(*): Products that are classified in a section other than the footwear section. For this reason, the full coding was mentioned.

C) Examples of footwear covered by this Technical Regulation

The word "footwear" refers to everything worn on the feet, a shoe whose upper part consists of removable laces or straps, or has a long leg (trouser shoe) whose upper part covers the leg and thigh. In particular, this definition covers the following:

- 1) Indoor or outdoor slippers, and other heeled and non-heeled footwear, whether flat or high-heeled.
- 2) High leg or semi –high footwear.
- 3) Sandals and other related footwear that falls under the following different types:
 - A) Canvas footwear (a fabric footwear, or whose part is made of braided plant material).
 - B) Footwear for tennis, running and other sports.
 - C) Bath sandals and other leisure footwear.
- 1) Sport footwear, which are equipped with accessories or nails, or similar devices, in addition to ski-footwear, wrestling footwear, boxing footwear and cycling footwear.
- 4) Dance footwear.
- 5) Footwear covers that are worn over other footwear for professional purposes and in some cases are non-heeled.
- 6) Single use footwear, generally designed for single use only.
- 7) Slippers.

Annex (2)

Conformity Assessment Form (Type 3) as per ISO/IEC 17067 (Type Approval Based on Quality Assurance of Production Process)

1 Type Approval Based on Quality Assurance of Production Process

A model of conformity assessment procedures, by which the supplier fulfills the obligations set out in the items below, while ensuring and acknowledging - on its sole responsibility - that the concerned products are in conformity with the type specified in the Type Approval Certificate and comply with the requirements of the relevant technical regulations.

2 Manufacturing

The supplier shall operate with a certified Product Safety Management System, to ensure the safety of the product, including production lines, final inspection and testing of the concerned products as per Clause (3), and shall be subject to periodic surveillance as per Clause (4).

3 Product Safety Management System

3/1 The supplier shall submit a request to a Notified Body of its choice, in order to evaluate the safety management system of concerned products.

The request shall include:

- A) Name and address of the supplier, and the name and address of the official representative, in case the representative submits the request.
- B) The manufacturer shall be officially licensed by the relevant authorities in the country of origin.
- C) A written declaration not to submit the same request to any other Notified Body.
- D) All relevant information regarding the concerned product category.
- E) Documentation of the Product Safety Management System.
- F) Technical documents of the certified type, and a copy of the Type Approval Certificate.

3/2 The Product Safety Management System shall guarantee that the manufactured products are in conformity with the type specified in the Type Approval Certificate, and with the requirements of the relevant technical regulations.

3/3 All the system elements and its requirements - adopted by the supplier - shall be documented in a systematic and orderly manner in a form of written policies, procedures and instructions. The documents of the Product Safety Management System shall provide a consistent understanding of the safety programs, plans, manuals and records. Such

documents shall contain, in particular, an adequate description of the following:

- A) Quality objectives, organizational structure, responsibilities and competences of the management regarding the safety of the product.
- B) Manufacturing techniques, product safety and quality assurance procedures, and applied processes and procedures.
- C) Executed inspections and tests; before, during, and after manufacturing, and the frequency with which they will be carried out.
- D) Records: such as inspection, testing, calibration reports, and the qualification documents of relevant personnel, etc.
- E) Means of control for achieving the required product safety and the effective operation of the Product Safety Management System.

3/4 The Notified Body, approving the Product Safety Management System, shall assess such system to determine whether it satisfies the requirements referred to in Clause (3/3), during the period of the approval of the system, which shall be three years.

3/5 The product shall be presumed to comply with the requirements of the technical regulations, in relation to the items of the Product Safety Management System, whenever it conforms to the standards.

3/6 In addition to experience in the relevant product safety, the auditing team shall have one technical expert - at least – who is experienced in the assessment of the field and techniques of manufacturing of the product, and is fully aware of the technical requirements stipulated in the relevant technical regulations.

3/7 The audit shall include an assessment visit to the factory. The auditing team shall review the technical documents referred to in Clause (3/3), in order to verify the manufacturer's ability to identify the requirements of the technical regulations and carry out the necessary examinations and tests to ensure compliance of the product with these requirements.

3/8 The manufacturer shall be notified of the decision after the end of the assessment, provided that such notice include audit findings, assessment decision, along with the justifications on which the decision was based.

3/9 The manufacturer shall be committed to satisfy the obligations of the Product Safety Management System, as approved, and to maintain the system so that it remains adequate and efficient.

3/10 The manufacturer shall notify the conformity assessment body, which approved the Product Safety Management System, of any proposed modifications to the system.

3/11 The Notified Body shall assess any proposed modifications and decide whether the **modified Product Safety Management System** will continue to satisfy the requirements referred to in Clause (3/3) or a reassessment is necessary. The Notified Body shall notify the manufacturer of its decision; the notification shall include testing results along with the justifications of the assessment decision.

4 Periodic Surveillance Under the Responsibility of the Notified Body

4/1 The purpose of periodic surveillance is to verify the extent of which the supplier meets the obligations of the certified Product Safety Management System.

4/2 For assessment purposes, the supplier shall allow the Notified Body, during the validation period, to enter the manufacturing, inspection, testing and storage sites. The supplier shall provide the Notified Body with all necessary information, particularly, the Product Safety Management System documents and safety records, such as testing and calibration reports, and the qualification documents of relevant personnel, etc.

4/3 The Notified Body shall carry out **periodic audit** visits to verify that the manufacturer applies and maintains the **Product Safety Management System**, and shall provide the supplier with an audit report.

4/4 The Notified Body have the right to perform unexpected visits to the factory. During such visits, the Notified Body may, as necessary, carry out product tests, or have them carried out by a third party, in order to verify that the Product Safety Management System is properly functioning. The Notified Body shall provide the supplier with an assessment report, and testing reports, in case of testing.

5 Certificate of Conformity and Declaration of Conformity

5/1 The Notified Body shall issue a **Certificate of Conformity** for the product in case the supplier has an effective and certified Product Safety Management System, upon the request of the supplier, within the validity period.

5/2 The Notified Body shall identify the product details in each request, clarify such details in the issued Certificate of Conformity, and record them in the electronic portal for conformity (in SASO).

5/3 The supplier shall provide a written Declaration of Conformity for each approved product type (Type Approval), and shall put it at the Regulatory Authorities and Market Surveillance Authorities disposal for a period of ten (10) years, at least, after the placement of the product in the market. The Declaration of Conformity of the supplier shall identify the approved product type. Furthermore, a copy of the Certificate of Conformity and the Declaration of Conformity shall be provided to the

Regulatory Authorities and Market Surveillance Authorities upon request.

- 5/4** The supplier shall put the following documents at the Regulatory Authorities and Market Surveillance Authorities disposal, for a period of ten (10) years, at least, after placement of the product in the market:
- A) Documentation referred to in Clause (3/3).
 - B) The amendments referred to in Clause (3/9), as approved.
 - C) Decisions and reports of the Notified Body, referred to in Clause (3/7).
- 5/5** Each Notified Body shall inform the Regulatory Authorities and Market Surveillance Authorities of issued or withdrawn Product Safety Management System approvals, and shall periodically or upon request, provide lists of Product Safety Management System approvals that have been rejected, suspended, or restricted by any means; on a regular basis or upon request. Each Notified Body shall inform, upon request, the other Notified Bodies of Product Safety Management System approvals it has rejected, suspended, withdrawn, or restricted; and notify such bodies of Product Safety Management System approvals issued by it.

Annex (3)

Conformity Assessment Form (Type 1a) as per ISO/IEC 17067

(Type Approval)

1 Type Approval

Type approval is defined as one of the conformity assessment procedures, under which a notified body reviews and verifies the technical design of the product and declares that the technical design meets the requirements of the relevant Saudi Technical Regulations.

Type approval may be conducted by one of the two following methods:

- A) Examination of a representative sample of the entire product, that represent the expected production (production model).
- B) Assessment of the conformity of the technical design of the product by **auditing the relevant technical documentation and manuals** (design model), and examining of a representative sample of the expected production for one part or more involving hazardous parts of the product (a combination of the production model and the design model).

2 Procedures of Type Approval

2/1 Submission of a Type Approval Request to a Notified Body

The manufacturer shall submit a request for type approval to a notified body selected by the manufacturer, such request shall include:

- A) **Name and address of the manufacturer;**
- B) **A written declaration not to submit the same request to any other Notified Body.**
- C) **Technical documentation facilitating the assessment of the conformity of the product to the requirements of Saudi technical regulations. Such documentation shall include adequate analysis and evaluation of risks.**
- D) Technical documentation shall identify the requirements that apply to the product. Including, as required by the assessment, the design of the product, manufacturing and operation (use) of the product.
- E) Technical documentation shall include – at least - the following:
 - 1) A general description of the product.
 - 2) Design and manufacturing drawings, horizontal projections (diagrams), components, units, subdivisions, etc.
 - 3) Description and explanations, referred to therein, necessary to understand the drawings, diagrams, and the operation (use) of the product.

- 4) A list of the Saudi standards or any other relevant technical specifications adopted by SASO, whether fully or partially applied, and a description of the adopted solutions to meet the essential requirements of the Saudi technical regulations in case of non-application of the aforementioned standards. In case of partial application of Saudi standards, the technical documentation shall clarify the applied clauses.
- 5) Report results (graph calculations) of the design, operation control, conducted tests, etc.
- 6) Test reports.
- 7) Representative samples of the planned production. The notified body may request additional samples, if necessary.
- 8) Evidences (proofs) supporting the appropriateness of the technical solutions applied in the design. Such evidence shall refer to all documents, particularly in case of non-application of the Saudi standards and/or the aforementioned appropriate technical specification. Supporting evidences – as applicable - shall include results of test conducted in the suitable laboratory in the manufacturer or any other laboratory under the responsibility of manufacturer.

2/2 Tasks of the Notified Body

2/2/1 With regard to the product, the notified body shall:

Study the technical documentation and supporting evidence for the purpose of assessment of the technical design of the product.

2/2/2 With regard to the samples, the notified body shall:

- 1) Ensure that the manufacturing of samples is conformant to the technical documentation, in addition to identifying the elements designed in accordance with the Saudi standards, and the elements designed in accordance with other standards.
- 2) Carry out appropriate examinations and tests, or outsource them in order to verify that the technical solutions adopted by the manufacturer meet the essential requirements specified in the standards, in case of non-application of the relevant standards.
- 3) Carry out appropriate tests or outsource them, in order to verify that – in case of non-application of Saudi standards and/or other appropriate standards - the technical solutions adopted by the manufacturer meet the essential requirements of the Saudi technical regulations.
- 4) Be in agreement with the manufacturer on the venue where tests should be conducted.

2/2/3 As for decisions made by the Notified Body:

- 1) The notified body shall issue an assessment report of the procedures carried out and their outputs. The notified body shall not publish, fully or partially, the report without the approval of the manufacturer.
- 2) In case the type meets the requirements of the Saudi technical regulations relevant to the concerned product, the Notified Body shall issue a Type Approval Certificate for the manufacturer. Such certificate shall include the name and address of the manufacturer, test results, the validity conditions thereof, if any, and all information required for identification of the certified type. The certificate may also include attachments.
- 3) The certificate, along with its attachments, shall include all necessary information required to assess the conformity of manufactured products, according to the tested type and for monitoring during operation.
- 4) In case the type is non-conforming to the requirements of the Saudi Technical Regulations applicable to the product, the Notified Body shall not issue the Type Approval Certificate and shall notify the applicant of its decision, stating detailed justifications for such decision.
- 5) The Notified Body shall follow all recognized technological developments. Whenever such developments indicate that the possibility that the certified type may no longer comply with the requirements of the Saudi Technical Regulations, the Notified Body shall determine to what extent further tests are required, and it shall inform the manufacturer accordingly.
- 6) The manufacturer shall inform the Notified Body, holding the technical documentation related to the Type Approval Certificate, of all modifications of the certified type, which may affect the conformity of the product to the requirements of the Saudi Technical Regulations, or to the terms of validity of the Type Approval Certificate. As such modifications require additional approval other than the primary Type Approval Certificate.
- 7) Notified bodies shall inform SASO of the Type Approval Certificates and any additions issued or withdrawn, and shall periodically, or upon request, provide a list of the Type Approval Certificates and any additions that has been rejected, suspended, or restricted in any way.
- 8) Each Notified Body shall inform the other accredited Notified Bodies of the Type Approval Certificates and any additions that has been rejected, suspended, or restricted in any way. In addition, they shall be informed, upon request, about Type Approval Certificates or any additions released.
- 9) Upon request, SASO and other Notified Bodies can obtain copies of the Type Approval Certificates and/or additions thereto. SASO may obtain

copies of technical documentation and testing results carried out by the Notified Body, upon request. The Notified Body shall keep a copy of the Type Approval Certificate, its annexes and additions, in addition to the technical documentation (including documents attached by the manufacturer) up until the certificate's expiration date.

- 10) The manufacturer shall keep a copy of the Type Approval Certificate, its annexes and additions thereto, in addition to the technical documentation. Furthermore, the manufacturer shall make all documents available to Regulatory Authorities and Market Surveillance Authorities for ten (10) years after placement of the product in the market.
- 11) The supplier may submit the request mentioned in Clause (2/1/1), and carry out the aforementioned tasks on behalf of the manufacturer, on the condition of the manufacturer's consent.

Annex (4)

Supplier Declaration of Conformity Form

This form shall be filled in on the company's letterhead papers

1) Supplier data:

- Name:
- Address:
-
-
- Contact person:
- Email:
- Tel. No.:
- Fax. No.:

2) Product details:

- Trademark:.....
- Type:.....
- Product Description:.....
- Category (according to the standards):.....
- Reference standards/ technical specifications:
-

We, hereby, acknowledge that the above-mentioned product is conforming to the Saudi technical regulation (), and the Saudi standards included therein.

- Person in Charge:
- Company:
- Signature: Date:--/--/-----
